Still better shooter than CoD. This game was... interesting. Basically, you are a normal schoolkid who idolizes two beauties. You feel intimidated by their perfection and would never dream that either could have problems... or be interested in you. And then... something happens... and you find yourself in each of their bodies on successive days... and you find out what really is going on.

The game reaches has four endings apparently, two good, two bad. The achievements are tied to the two good endings.. A delightful story of lost love and the chance to make it all right again. The character drawings, voicing and music really gives dimension to the each character. what let's it down a little bit is the basic interface.. Most fun I've had in a game in a long time. Love all the unique classes and the story is really great. Combat is fun and challenging. If you like old school final fantasy this game is a MUST have! So excited and eager to get any expansaions or sequels.. terrible dlc because

1. Needs Virgin Trains Livery
2. Needs 11-Car Sets
3. Cab Light doesn't work. So far so good! I'm only a few hours in but have been enjoying it quite a bit already. Here's a look at my initial run in the game ;)

<https://www.youtube.com/watch?v=Cpl8X270w9w>. A fun, short little horror game. It may not seem like much, but in my opinion, it does a good job of setting the mood and is able to surprise you when you let your guard down. I enjoyed thinking about what the story could be like while looking at well modelled sets. This game was most certainly not half♥♥♥♥♥♥♥♥♥♥and deserves a thumbs up considering the small crew! Job well done! ^.^ If you have completed Commandos 2 on hardest difficulty, you won't be able to play this game.. Very Disapointing. This caputure app has potential, like the plugin feature. But the potential is overall wasted.

Your video files will have a ridiculous huge size p.e. 11 minutes recording gameplay results is 6 gb xD with obs I have in 12 minutes 236 mb. Because of this it is useless.

Also doing just new version and abandon the old version just to sell again is kinda like scam. I paid for this program and I never had a usefull use with it.

I can not recommend this software there are way better option out there instad of buying this. rather donate obs some money.

grets. I rate HUE/10

No Co-op, trouble-shooting is necessary in order to play the game. Game play and story-line is excellent. This review was requested by (and game supplied by) TrueAceKiller. Nice one, man. ^_^
And I'll admit right now, that I WISH I was recording my experience...my freak out was golden.)

One thing I'll never understand...*Masked Shooters 2* is a sequel of a mysterious *Masked Shooters*, but...why isn't it on Steam? You'll be pleased to know that you're not missing much as the original...is almost exactly the same as the sequel, but was released on Gamejolt 2 years earlier. <http://gamejolt.com/games/masked-shooters/31454#close>

As discovered, this game is constructed in Unity (We meet again, eh?...), as you'll realize that bodies will occasionally spaz out and distort right after they're killed as shown below:

Now...I KNOW I've seen this before...but where?.....It's almost like....

<https://www.youtube.com/watch?v=l5solYnY3MM>

(If the video is removed: "Geddan meme")

Of course, that's not the only problem. My associate has discovered mid-game that running into a wall corner a certain way will cause you to skyrocket into the sky....there is no map ceiling.

<http://steamcommunity.com/sharedfiles/filedetails/?id=786221009>

We also discovered that the RPG is insanely powerful and will kill in a single hit, a common choice for players. A sniper rifle can body shot or foot shot and STILL count as an instant kill. Anything that is not a machine gun / assault rifle / submachine gun will take as little as 1-2 hits to kill someone, even at a distance. Of course, every single weapon is in your inventory from the get-go. Some serious balancing is in order.

Masked Shooters 2 lacks in variety as everyone plays as the exact same model on a selection of 3 maps...this game has been on Steam since January 2016 and has not had a gameplay update since April 2016. The only pro-side is that it looks decent (though subpar), and is a Deathmatch title.

Is it worth asking price (\$1)? Not at all when you can play Team Fortress 2 for free. I commend the developer for making this game, but it's not the best shooter you can expect. You can find many free shooters out there, this title should be free as well, considering how little you're getting with it.

3/10 A generic deathmatch shooter lacking in variety and in serious need of fixing.. Amusing, and too short.. i got a coupon for it and had some money in my steam wallet. tbh i didnt expect it to be pretty good but its amazing for a 1 dollar game. the controls are od but you will get used to it. Hello everybody,

the game has a LOT of potential, very beautiful graphics and it seems to be very interesting story - still need a lot of things to be finished! Keep up the good work, devs!! Do not waste your money on this.

Firstly, it's simple controls wouldn't work with my son's 8bitdo SFC30 gamepad, which was a bit annoying given how simple the controls are.

Secondly the game is so bad it isn't worth any money whatsoever. The "physics" are like those programmed by a first time programmer and are quite horrible (e.g. 1 speed up/down when jumping, no acceleration curve). The main game mechanic of starving very quickly is just ridiculous - this was a game I only bought for my kid to play but it was too hard to play it. Even I had trouble with the first level, let alone the 2nd.

So with those 2 factors in mind I requested a refund.. Good game but too short. Well polished and fun game, with difficult and clever puzzles that give you that "a-ha!" moment when you figure them out. Graphics are simple but consistent and clearly understandable (what you see in the screenshots is what there is). Music and sound effects are good, but can get a bit repetitive after playing for a few hours straight. I have thoroughly enjoyed playing it so far.
